PROFESSIONAL SUMMARY

Junior UX/UI designer finishing an MA in Strategic Design Management at IED Barcelona (December 2026), with hands-on design-system work (token-based Figma component libraries at Admirise, standardised Figma structure at DFDS) and user research with real participants. I built the working prototype of a caregiver app with AI and voice features on my own, in Flutter on a Supabase backend with OpenAI GPT-4o-mini and Whisper. English C1, based in Barcelona, available from 15 December 2026.

CORE COMPETENCIES

Figma user flows, wireframes and hi-fi design | Design systems and component libraries | User research and usability testing | Turning user evidence into design changes | Prototyping with code (Flutter) and AI tools | Working with developers | WCAG 2.1 accessibility patterns

WORK EXPERIENCE

Admirise Digital Performance Agency

Jul 2025 - Jan 2026

UX/UI Designer

Frankfurt, Germany (Remote)

- Built token-based Figma component libraries the dev team could use without a call every time.
- Designed end-to-end Shopify and WooCommerce flows covering information architecture, navigation, product detail pages, cart, and checkout.
- Ran competitor and heuristic analyses; produced user journeys, personas, and task flows; applied WCAG 2.1 patterns across touchpoints.
- Worked each day inside a remote team, with German, Turkish, and English-speaking colleagues in marketing, development, and account management.

Elysee Playgrounds

Sep 2023 - May 2025

Product & Visual Designer

Istanbul, Turkey

- Created interaction diagrams and design documentation that kept engineering and production working from the same reference.
- Analyzed how parts and interfaces interact to improve assembly flows; evaluated usability and ergonomics, then iterated prototypes on field feedback.

DFDS

Jul 2023 - Aug 2023

UX/UI Designer, Intern

Istanbul, Turkey

- Designed low to high-fidelity prototypes and standardized Figma file structure and component libraries.
- Conducted user research and moderated usability tests; contributed findings to UX audits.
- Documented requirements and acceptance criteria with product and operations teams; supported Agile ceremonies.

Turasis Telecom Systems

Jun 2020 - Sep 2022

Industrial Product Designer

Istanbul, Turkey

- Coordinated with engineers and external suppliers to resolve part interaction issues before they reached production.

PROJECTS

Pocket Pediatrics IED Barcelona x Fujitsu brief

Team of four designers. Research pointed to cognitive load as a key source of stress for caregivers. The team tested 5 core journeys with 14 participants, plus 2 expert reviews. After 7 of 14 participants looked for sharing on the appointment summary, we moved it there and added a confirmation after sending. I built the working prototype on my own: the Flutter code and the UI. Live demo: pocket-pediatrics.vercel.app (choose the Oscar profile).

Figma, Flutter, Supabase

EDUCATION

Master's, Strategic Design Management IED Barcelona — Jan 2026 - Dec 2026 (expected)

Bachelor's Degree, Industrial and Product Design Doğuş University, Istanbul — Sep 2019 - Feb 2023

Erasmus exchange: Academy of Fine Arts in Wrocław, Design, Sep 2022 - Feb 2023.

SKILLS

Design and research: Figma, component libraries, design tokens, interaction design, user interviews, usability testing, heuristic evaluation, journey mapping, accessibility patterns (WCAG 2.1)

Prototyping and delivery: Flutter, HTML, CSS, Supabase, Git; AI-assisted prototyping with Claude Code

Commerce: Shopify, WooCommerce **Languages:** Turkish (native), English (C1), Spanish (A1), Polish (basic), German (basic)

References: A professional reference from Roche (Design Director, User Experience Design and Validation) is available on request.
